Please provide a description of your organization's mission:

Section 1: Eligibility

Please check the boxes below to confirm that you meet the eligibility requirements for this grant application:

- ☐ I confirm that the organization I am representing in this application is not-for-profit.
- ☐ I understand that grant recipients will be required to present their final report at the annual NHCMA winter meeting in 2025 (date TBA).
- ☐ I understand that the funding provided by this grant must be used to benefit the residents of the Greater New Haven area.

Section 2: Introduction and Purpose (250 words maximum per question)

1. What is the specific public health issue or challenge your project/research aims to address in the Greater New Haven area?
2. How does your project align with the mission of the NHCMA Foundation to promote health and well-being in Greater New Haven area?
3. How will your project directly benefit the residents of the Greater New Haven area?

Section 3: Proposal Guidelines

4. Provide a detailed description of your project/research, including objectives, methodology, and expected outcomes.
5. Outline an itemized budget, detailing how the grant funds will be used. Please also include mention of any additional outside funding pertaining to your proposed project, if any.
6. Please provide an outline of your project/research's timeline. The proposed goal of the project should be completed within one year of funding disbursement.
7. Describe your plan for evaluating the project/research's impact on public health in the Greater New Haven area.
