

SIX MANDATORY CME PROGRAMS FOR CONNECTICUT MEDICAL LICENSE RENEWAL

AVAILABLE ONLINE

Prior to July 1, 2013, the Connecticut General Statutes required that all physicians must complete a minimum of 50 contact hours of continuing medical education every two years in order to be eligible for medical license renewal. Such CME had to include at least one contact hour of training in risk management, sexual assault, domestic violence, infectious diseases (including AIDS and HIV), and cultural competency. **The requirement to repeat the mandated CME topics was increased from two to every six years.** The six-year interval only applies to the mandatory education topics and not the general requirement to have 50 contact hours of CME within the preceding 24-month period.

Public Act 13-217, An Act Concerning Continuing Education Courses for physicians, also added behavioral health as a mandated topic. **The behavioral health credit will need to be taken over the next two-year period, but no later than June 1, 2015 for any license renewal after that date.**

FCMA has all six mandatory topics available for online viewing at www.fcma.org (go to Practice Solutions/FCMA Educational Library). Once you have viewed the video(s), download the questionnaire(s), and return the completed questionnaire(s) with this order form. We will then send you your *Certificate of Completion*.
